Employee Self Service Job Aid:

Mobile (phone, tablet) Elapsed Time

Elapsed time entry is for salaried employees that report hours using total hours worked on a daily basis.

If reporting to task profiles/combo codes/user fields, it’s highly recommended that you create quick fill(s) on your computer to make the mobile time entry process easier. Instructions on how to set up quick fill via mobile are available here and instruction on how to set it up via computer are available here.

Time reporting codes (TRCs) that are non-work hours that are entered with a quantity (nurse responsibility, certain on call codes, etc.) will not be available to enter or review via mobile time entry.

The deadline for employees to enter their timesheets is 2 p.m. on Monday. Timesheets are fully locked down at 12 p.m. on Tuesday following the end of each biweekly pay period.
