This Quick Start Guide will go over the new Fluid navigation for Employee Self Service (ESS) users of the STAR Human Resources System.

Fluid replaces the previous menu-driven style and provides a more intuitive and modern interface that groups like items together.

**What is Staying the Same?**
Employees will continue to access Employee Self Service through the same website. Most of what you do today, like filling out your timesheet or reviewing your paycheck, will stay the same. You will still be able to access the system through any internet-enabled device.

**New Features**

**Responsive, Tile Based Navigation**
The Fluid interface is responsive and adjusts to fit the size of your screen. Self-service pages are now grouped together by like functions within a Tile.

**Expanded Tax Withholding Options**
Employees will now be able to update both state and federal tax withholding online through employee self-service. Previously, employees could only update federal tax withholding online.

**Resources**
A Resources Tile is available on the ESS Homepage. This tile provides direct links to job aids, benefit information and applications, payroll information, Wellness and Employee Assistance Program resources, as well as links to both ELM and Travel & Expense.

### Employee Self Service Homepage
Once you log in to STAR, you will see the Employee Self Service Homepage.

You will then click on one of the Tiles to access self service features. For example, you can access Timesheet and Absence Information through the My Time Tile.

Your Timesheet will automatically open when you click on the My Time Tile. You can then click on other pages within the tile’s navigation collection to access those pages.

To go back to the Employee Self Service Homepage, click on the Employee Self Service link in the upper left of the page – do not use the back button on your internet browser.
